FRISCO IS AGAIN SHAKEN BY QUAKE

Minute and Half Shock Felt
Yesterday Afternoon.

Some Alarm Was Created and One
Death Caused, But No Damage
of Consequence Followed.

WAVE WAS FELT IN OAKLAND

San Francisco, Cal., April 26.—At 3:15 yesterday afternoon a shock from an earthquake was felt. It lasted over a minute and caused considerable alarm.

A number of walls of burned buildings were thrown down and frail buildings considerably shaken up. The shock was also felt in Oakland and Berkeley, but in these places it was very slight and of brief duration.

One Death Caused.
The quake caused the death of Mrs. Annie Whitaker, aged 25 years. She was at work in the kitchen of her home when the shock came. A chimney which had been left tottering by the quake last Wednesday cracked through the roof upon the woman and fractured her skull.

Food Supply Large.
San Francisco, Cal., April 26.—The food committee report that all necessary provisions are on hand and obtainable. They said that they were even overwhelmed with provisions. Mayor Schmitz believes the total contribution to be between four and six millions but Secretary McCall is positive the total is above six millions.

Donation From Honolulu.
San Francisco, Cal., April 26.—The steamer Albatross arrived from Honolulu having on board a supply of sugar, at present badly needed, which will be distributed by the relief committee. The cargo included 10,000 sacks of raw material together with a quantity of coffee, rice and 4,000 bunches of bananas. News from the quake and fire was received at Honolulu a few hours before the scheduled departure of the vessel, but she was held until the next day. The wildest excitement prevailed, business practically was suspended, and crowds surrounded the cable office.

Garbage Collection System and General Cleaning up Day.

The board of health and the board of works and the ordinance committee, to whom the matter was referred, will meet one day this week to prepare an ordinance for the establishment of a garbage collection system. The plan is to have the work done by contract, every day and the expense borne by the residents.

"The disposal of garbage is a matter that should have the most careful attention," said Dr. Sights today, "and the board of health, appreciating that fact is very anxious to establish a system for doing it. Let us clean up the alleys and the gutters and streets and cart off the garbage, and a healthy condition will naturally follow."

"Our inspectors are finding the city in a dirty condition but they are prosecuting their work well, and we shall have things cleaned up nicely in a few days."

When asked if a general cleaning up day would not be a good thing for the city, he said, "by all means let it be done. Other cities are doing it, and find it well worth the trouble. It greatly assists up in our work, and we should like to have it done in Paducah. Let the mayor issue a proclamation calling on every one to clean up their premises on a certain day, and we shall have started our work well."

Calder communication was cut off and no further news received.

To Call Legislature Together.
Oakland, Cal., April 26.—Governor Pardee announces that he will call a special session of the legislature as soon as possible.

Relief Channels Consolidate.
Washington, April 26.—All chance of misunderstanding as to the channel through which relief should be afforded the San Francisco sufferers was removed today by the consolidation of the citizens' finance committee with the California branch of the Red Cross. This consolidation assures the active co-operation of the Red Cross with the local relief committee and places all distribution of supplies and accounting for contributions under the war department.

Offered a Hospital Ship.
Washington, April 26.—The Japanese government has offered to send a hospital ship at top speed to San Francisco to aid in the relief work. The state department has replied that owing to the rapidly with which the country has come to the relief of the distressed city it may be safe to estimate that there will exist no need for the ship by the time she could cross the Pacific. The president stated his appreciation of the spirit which actuated this offer.

Loss of Methodist Churches.
Oakland, Cal., April 26.—Rev. W. S. Matthews, presiding officer of the Methodist churches in California, stated today the losses of the Methodist churches in San Francisco are \$500,000.

KILLED A BROTHER.
Insane Man Shot His Brother to Protect Future Generations.

St. Louis, Mo., April 26.—J. H. Strunk, who recently returned here from a sanitarium, last night shot and killed his brother, Charles, proprietor of a tailoring establishment. Strunk was arrested and said he killed his brother to protect future generations and in obedience to a command given him by his father 30 years ago. Both men are wealthy.

How San Jose Suffered.
Los Angeles, April 26.—Accurate accounts of the destruction wrought by the earthquake at San Jose show the business center and half of the residence section damaged or destroyed. The loss aggregates eight millions dollars. Nineteen persons were killed and 200 injured, and 5,000 made homeless.

IS ON VERGE OF REBELLION

France at Present Moment is

Peril of Grave Nature Seriously
Menaces the European Republic
as Anarchy Threatens.

OPEN TALK OF RANK TREASON.

Paris, April 26.—Sunny skies never smiled upon a fairer Paris. The streets of the world's gayest capital never teemed with brighter life, yet France at the present moment is face to face with the gravest peril that can menace a democracy or any form of government. The law has bowed the mob in more than one disturbed district, with the inevitable result. Rebellion has begun and anarchy threatens to swiftly follow, not only at the scenes of the prevailing riots, but in Paris itself. The government is regularly censoring press telegrams in the hope of preventing the facts from getting abroad. Two dispatches were suppressed in the last two days. It has been necessary to send this dispatch by messenger to London in case of its non-transmission by wire from here.

The attention of the world cannot fail to concentrate on the tremendous object lesson in modern statecraft which France will be compelled to furnish in a few days. Weakness first manifested itself in tolerance of verbal defiance of the law. Even President Loubet on one occasion permitted a red flag to pass him in procession without protest. Virtual treason has talked openly in certain quarters for months past.

There will be attempts made to connect the present labor insurrection with the agitation against the religious separation law. The only connection is the effect of a bad example. It was in dealing with the rioters who opposed the authorities taking inventories of church property that the government first openly condemned violent defiance of the law. Citizens who flagrantly assaulted public officers and soldiers who refused to obey orders were allowed to go scot free. Attempts to enforce the law in districts where it was especially unpopular were finally abandoned entirely under the plea of expediency. The royalists, clericals, anarchists and socialists are re-energized by the great body of organized labor, whose rank and file are not enemies of the republic but whose unscrupulous leaders seized the opportunity to press demands which they knew were impossible of attainment in ordinary times.

High-handed outrages have been committed in the mining districts. More than 10,000 men joined in open defiance of the law and its representatives. A few troops were sent at first. When matters became worse more soldiers were sent. Their instructions were to show themselves for moral effect, but on no account to use their arms, even in self-defense. The rioters speedily took advantage of this licensed lawlessness. They destroyed everything they could lay their hands on, including the railway and telegraph lines, looted shops and burned houses. Then matters reached a pass which is almost incredible. The mob attacked the troops in the streets, pelting them with a murderous fusillade of bricks, stones and other missiles. One or two were killed and many wounded.

KILLS ASSAILANT OF HIS DAUGHTER.

Texas Fires Both Barrels of Shotgun
Into Negro Flood.

Groesbeck, Tex., April 26.—The daughter of J. A. Eastland, at Delia, was assaulted by a negro in her room. The father hearing his daughter's screams, rushed in to find the negro gone. He suspected a new hand he had employed, and went to his room. The bed was warm, but without occupant.

Constables George Thomason and Henry Ogilvie caught the negro near Prairie Hill, six miles away, but a posse of citizens took the man away from them and held him until the arrival of the father.

When Eastland rode up he ordered the crowd to stand back and emptied both barrels of his shotgun, loaded with buckshot, into the negro, killing him instantly.

MAYOR APPOINTS THE PARK BOARD

Prominent Business and Professional Men Selected.

The Board Will Meet Monday to
Organize and Discuss Preliminary Matters.

THE TERMS OF THE OFFICE

Mayor Yeiser announced his park commissioners last night, and they are as follows:

George W. Walters, five years.
H. C. Rhodes, four years.
Charles Reed, three years.
D. G. Murrell, two years.
Edwin J. Paxton, one year.

All of the gentlemen are well known business men. Mr. Walters is manager of The Sun job office and is very prominent in the administration of the Central Labor unions. Mr. Rhodes is president of The Rhodes-Burford Co. Mr. Reed is president of the Palmer Hotel company. Dr. D. G. Murrell is chief surgeon of the I. C. hospital and Mr. Paxton is general manager of The Sun.

The board will be called to meet Monday to organize, and will elect officers, and discuss preliminary matters in connection with its work.

Under the provisions of the bill passed by the legislature creating the park commission in cities of the second class, the commission has charge of all matters pertaining to the location of parks, and their maintenance and it is obligatory on the council to provide funds for their maintenance.

The cities are authorized to issue bonds to purchase parks, but then propositions have to be submitted to a vote of the people.

The terms of office of the commissioners are one, two, three, four and five years.

Mayor Yeiser is an enthusiast for parks and in making his selections was anxious to secure men, he says, who would take an interest in the work, and regard their work free of any political influences. The commission will have a big task on its hands, as there is absolutely no system of parks in the city at present, and it will have to lay the foundation for the years to come.

It is too early to state what sites are in prospect. There are a number of excellent ones suggested, but the mayor has done nothing in the matter as he wished to get his board made up and turn the matter over to it as the law provides.

The park commissioners are bonded officials, the bond required being \$5,000. The commission has one salaried officer, the secretary, who can be a member of the board or not, as it sees fit. The salary is \$300 a year.

CONFIDENCE IS BEING RESTORED

Restoration is Now the Watch-
word in Frisco.

Conditions Are All Improving and
the Feeling of People Grows
Better Also.

CHINATOWN RUINS ARE LOOTED

San Francisco, April 26.—Confidence though slow is gradually coming back to the people of this city. Vigorous steps are being taken towards restoring the place to normal conditions.

Restrictions on entrance into city from other day cities has been withdrawn.

The blowing up of all dangerous walls continues and before many days the streets will be entirely safe. Disorders have become infrequent the summary punishment of all offenders having had salutary effect.

Conditions of the refugees in all the camps is daily improving. Food supplies are pouring in from all parts of the country, but these will meet only temporary demand. The number of the sick and injured at the hospitals are reported as greatly reduced.

The exodus is dwindling rapidly.

Chinatown in Looters' Hands.

San Francisco, April 26.—The withdrawal of troops from the burned district in the section where Chinatown stood was followed by raid of looters on the ruins. Men and women by hundreds at once began to work in hot ashes in search of loot. Some searchers had great success. Several pieces of valuable china were found entirely intact. Costly bronzes and other metal work were uncovered. One woman found a piece of gold worth several hundred dollars which is supposed to be coin melted in the intense heat.

First Government Relief Train Arrives.

San Francisco, April 26.—The first government relief train arrived here last night. The heavy grades delayed its movement along the Southern Pacific. All along the route, the train met special refugee trains from the coast.

New York's Big Relief Fund.

New York, April 26.—The local San Francisco relief fund is near the four million mark today and will probably pass it before tomorrow if the subscriptions flow in anywhere near the volume they have been.

Banks Begin Business in a Way.

San Francisco, April 26.—The commercial banks are preparing to resume business in a preliminary way. They have arranged to pay depositors not exceeding 50 per cent of their accounts. This will be done by check which when endorsed by officers of the banks will be cashed at the mint.

Abolished Pass System.

Washington, April 26.—General Greely, at San Francisco, informs the federal government that he has abolished the pass system entirely in the city environs. Any respectable person now applying can enter the city.

Will Favor San Francisco Orders.

Pittsburg, April 26.—Orders issued by the officials of the Carnegie Steel company make all contracts for structural and other steel work for San Francisco "emergency orders" and give them preference. This applies to all branches of the U. S. steel corporation.

TILLMAN TO RUN FOR PRESIDENCY

Little Rock Friend Asserts Possibility
He Will Announce Eventually.

Little Rock, Ark., April 26.—A gentleman residing in Little Rock, who takes pride in the fact that Senator Ben Tillman of South Carolina, is his personal friend, asserts positively that the latter will be a candidate for the presidency in 1908.

The Little Rock friend of the fiery South Carolinian claims to have direct information to this effect, but declines to be quoted for the reason that, in his opinion, Senator Tillman will make the announcement in his own good time, and he prefers not to forestall him in the declaration.

DIED IN POVERTY.

Celebrated Engineer Who Was Three
Times Thanked By Congress.

New York, April 26.—Brigadier General Edward Wellman Serrell, a noted civil and military engineer, is dead at the age of 80. He died in poverty.

Serrell was the engineer who first surveyed the inter-oceanic canal route for the government across Panama. He built the Hoosac tunnel and planned and constructed the Niagara suspension bridge. He received nine medals and decorations and was a fellow of American Academy of Science. Three times he received thanks of congress.

Weds a Tennesseean.

Fulton, Ky., April 26.—Miss Ella Edwards, of near Water Valley, Ky., and Harney Brinsdine, of Puryear, Tenn., were united in the holy bonds of matrimony Tuesday evening at the home of the bride's parents, Rev. and Mrs. Edwards. Rev. D. W. Powikes, of Paducah, said the ceremony.

Mr. Brinsdine is a prominent druggist and is an excellent young man.

Wickliffes Maury in Tennessee.

Fulton, Ky., April 26.—Miss Clementine Simmons and Walter Nichols, prominent society people of Wickliffe, were married Easter Sunday at 6 o'clock in the parlors of the Southern Hotel at Jackson, Tenn.

The bride is the pretty and accomplished daughter of Mr. and Mrs. H. L. Simmons.

Mr. Nichols is a prominent lumberman and has valuable business interests in Wickliffe.

Miners Forced Into Idleness.

Salmeyville, Ohio, April 26.—Three hundred miners are thrown out of employment by the destruction of the shafts of Tipton Slope mines of the Ohio-Pennsylvania Coal company by fire yesterday. The loss is heavy.

The Lagomarsino Hotel is to Change Hands Tomorrow.

A deal was consummated today for the sale of the Hotel Lagomarsino. The papers in the matter are being prepared, the terms of the sale agreed upon, and the transfer of the property will be made Monday. The purchasers are R. E. Moshell & Co., and the consideration is private.

R. E. Moshell & Co. are owners of the Palmer house bar, but their lease expired with the sale of the Palmer to the new management. Mr. Moshell, the senior member of the company, is a hotel man of experience, and is very popular with a large circle of acquaintances.

BURNED TO DEATH WHILE LEFT ALONE

A Horrible Accident Which Occurred
Yesterday Forenoon.

Helpless Colored Woman Ignores Her
Clothing in Some Way Not
Clear.

INQUEST HELD THIS MORNING.

Conlie Golden, colored, age 45 years met a horrible death yesterday about noon, at her home in "Fisherville," on the South Side of the city. She was burned to death, and her body was found with just a spark of life left in it by her husband, when he returned from work yesterday.

The woman was paralyzed twelve years ago. She could hardly walk when first stricken, and instead of improving gradually grew worse until she could not get about at all without assistance. Yesterday morning her husband, who works for Millton Brooks, colored, went to work and was away until noon. When he returned he found his wife's body lying in the middle of the floor horribly charred. The unfortunate woman was still alive but unconscious. The woman died before 1 o'clock yesterday afternoon.

The matter was reported to the coroner yesterday afternoon late and he went out to investigate. He collected all information necessary and this morning held an inquest. The verdict of the jury was that the woman came to her death by burning, but how is not clear. The woman could not well stand, and the floor where the body lay was scorched but not ignited. The body, from indications, was burned while in a lying posture.

The woman had no one when her husband was at work to keep her company except a neighbor occasionally. She had been getting along in this way for years, and the fact that she was alone when burned was not considered extraordinary.

The remains were buried this morning in the Potters' field by Coroner Frank Baker.

TO OPEN SEASON WITH MUCH SHOW

Merchants Will be Asked to
Lend Friendly Hand.

The Club Will Be Paraded With
Band, and Mayor to Toss
First Ball.

YESTERDAY'S LEAGUE GAMES.

The Calro and Paducah Baseball
associations will try to make the
opening of the league this season
quite an affair. In Calro the mer-
chants will be asked to close at 3
o'clock and permit their clerks to
attend the opening game. Paducah
merchants will be asked the same,
and it is probable that a majority of
the stores will let their clerks off for
the initial game even if the stores
are not closed.

The teams will make a parade and
a band will likely be secured. The
mayor will be requested to deliver
the first ball across the plate and if
he is absent from the city, the mayor
pro tem will be asked.

Notes About the Players.

Connors showed up mighty fine in
practice work at Calro yesterday,
but Gregory did not have much of
an opportunity. Connors is there
with the goods, and will make good
with any team, and Gregory's work
here was faultless.

It is a singular fact that not a
member of the Paducah team is a
"boomer." It is true that several
take a drink occasionally, but they
stop there. Lloyd does not lay down
any rigid rule for his men, but it
seems that he has gotten together a
bunch which does not care to drink.
Wetzel and Connors are fielding
and hitting like fiends. It's a clutch
that the Indians will not miss "Red"
Bohannon this year.

Walter Bissel, the fast left fielder
with Calro a short time last season,
is back in uniform for the Egyptian
city again. He is a fast man, as fast
as can be found in the league.

The Calro sporting writers do not
figure out that French is the best
second baseman in the league, a
claim made by Vincennes. Eddie
Gilligan is playing second sack this
season, let it be remembered.

Johnnie Dugan has returned to
Vincennes by Nashville and the
Hoosier fans are rejoicing. We do
not think Dugan amounts to a great
deal. Anyway the Indians had little
trouble in finding him last season.

Calro Mud Wallowers will meet
the St. Louis Washingtons, a team
which the Indians defeated in the
first anti-season game here. A ma-
jority of the team is in Metropolis,
and the team which will meet Calro
will not be the team the Indians
went up against by any means. It
may be stronger and it may be
weaker.

Ben Nipper, who was here two
years ago to catch for Paducah,
has been signed to handle the ball
to alternate with Bill Chenault, and
will arrive in a few days.
Nipper is from Ohio—the small
state where most all the 1906 In-
dians came from—and has been play-
ing in Augusta, Ga., in the South At-
lantic league. He is a sure thrower
and knows the game from start to finish. He will
make Paducah's strength sure, there
being no weak places with Nipper
in the line-up.

Dick Brahe has quit the game be-
cause he asked a big increase in sal-
ary and could not get it. Brahe was
given a handsome increase two days
ago, but held out for more. Lloyd
had to remain within the salary limit
and has sent to Birmingham to get
Billiard, of the Southern league, and
he will arrive by Saturday.

Has a Ball Team.

Mr. Virge Berry, of the local I. C.
wood working shops, has organized a
ball team and will meet all local
amateur teams. He thinks he will
capture the local amateur pennant
this season.

Delayed by Connections.

The fast south-bound flyer No. 103
from Louisville to Memphis, was de-
layed several hours this morning out
of Louisville by bad connections. It
did not arrive until 7:10 and is due
at 3:40.

Many Workmen Off Today.

The local I. C. shops presented an
abandoned appearance this morning.
Nearly the entire force in the wood
working department was off duty on
account of the Interstate Odd Fel-
lows' meeting. Most of the mem-
bers are Odd Fellows and this after-
noon the force was cut even more by
men laying off. The mechanical de-
partment force was also badly cri-
pled by the celebration.

Too Much Shooting.

Constable A. C. Shelton is investi-
gating a great deal of promiscuous
shooting in Mechanicsburg. He stated
that pistol shots could be heard
at any hour of the day or night in
that locality, and he is trying to find
out who is responsible for it.

THE TEACHERS' CORPS.

Few, if Any Changes Are Anticipated
the Coming Year.

From indications the teaching
corps of the Paducah public schools
for the year 1906-1907 will not dif-
fer a great deal from the present
corps except in one or two instances.
As far as this matter has been dis-
cussed the corps will remain the
same unless volunteer resignations
are placed with the boards.

"I think that the present corps is
an efficient one and will not differ a
great deal next term," an authority
stated this morning. "As far as re-
commendations from anyone in au-
thority is concerned, the corps will
remain the same up-to-date; that is
except in the cases of volunteer re-
signations. There are one or two teach-
ers who expect to resign and these
places will have to be filled. There
are several applications in from out
of town teachers who desire to come
into the schools, but we have selected
the kind of instructors we desire;
and women who are known to be
competent, and we have little trou-
ble in filling any vacancies that may
occur."

O O O O O O O O O O
DOWN MISERY LANE
IN SAN FRANCISCO.

O O O O O O O O O O
(From Louisville Herald.)

Of all the pitiful spectacles that
have marked the great San Francis-
co disaster none will live longer o-
more vividly in the memories of
those who witnessed it than the
march of the refugees "down Misery
Lane."

The announcement was made Fri-
day morning that it was safe to cross
the ferry landing. Immediately be-
gan the exodus of the stricken dis-
organized ranks, marched the most
pathetic and bizarre procession that
has ever filed through the thorough-
fares of a city.

The retreat of Napoleon from
Moscow lacked the spectacular and
heartrending features that charac-
terized this flight of the people of
San Francisco from the scene of their
ruined homes, the smoking pyre of
their sacred dead. The outgoing of
Israel from Egypt was a triumphal
procession; this was a despair driven
desertion of those whom Nature had
despoiled of all but life.

Men and women weeded to ex-
haustion by the strenuous experi-
ences of the past forty-eight hours,
scourged by the pangs of hunger
and numbed by the paralyzing ter-
rors of earthquake and flame, stum-
bled along the avenue flanked by the
blackened waste of what had been
once a street of magnificent build-
ings and teeming industry.

The sun smote upon them from
above with merciless heat augment-
ed by the radiations of the glowing
rubble on either side. Mothers pre-
sented famished infants to bosoms whose
maternal instincts were dry. Tod-
dler children clung to their parents'
hands and cried piteously for bread.
Men could be seen pushing baby car-
riages or supporting fainting wo-
men. It was a motley throng of
thousands, going they knew not
where, if it were but away
from the hideous roar of fire and dy-
namite and the horrible sights of
death and devastation.

Never was there so incongruous a
multitude, so strange a medley of
attire. Every race was represented.
Occident and Orient touched elbows;
the uncouth wall of the Chinaman
mingled with the cry of the Ameri-
can. Garb of any description served
the necessity of the occasion.

Citizens of former wealth and
prominence in silk hats and frock
coats, walked side by side with
others in rags. Women wore shawls,
tattered skirts, thin blouses, wrap-
pers, anything they had been able to
save from the wreckage. All were
fused into a homogeneous mass by
one common impulse—escape!

Through the disorderly ranks,
those fortunate enough to have re-
covered vehicles drove in reckless in-
difference to the safety of their fel-
lows on foot. To be first at the point
of transit was the compelling motive,
and in the madness of the moment
the thought of self predominated.

At so great a distance it is dif-
ficult for us to realize the full and ter-
rible significance of that unique pro-
cession. Into the overwhelming des-
pair that the events of the preceding
days had engendered in every heart
came one poignant throbbing of hope.
But what a hope! Hope of leaving
behind, perhaps forever, the scenes
of their loves and joys; their pleas-
ures and successes, once so beauti-
ful, so bright, so full of promise, but
in one day become a smoldering heap
a charnel house, a place of doom.

"Why do you avoid that bull-
dog?" asked Thord Tiffan, sneeringly.
"Fraid?"

"Not personally," answered Pre-
cious Perkins. "But my arguments are
sufficiently so."—Louisville Courier-
Journal.

SOUR MILK

CITY TO PASS ORDINANCE TO
PREVENT ITS SALE.

Law Will Require the Milk to Be
Well Cooled Before Leaving
the Dairy.

Sour milk is being sold by some
local milk dealers and there is a
great deal of complaint lodged daily
with the milk and meat inspector.
Dr. C. G. Warner. Steps are being taken
now to remedy this matter, and it
will be a breach of ordinance in the
future to sell sour milk, that is, no
sour milk will be sold if the provi-
sions of the ordinance are carried out.

Dr. Warner stated today that sour
milk is generally the result of deni-
ers not properly cooling the milk be-
fore it is brought to the city for sale.
The health authorities are now pre-
paring an ordinance requiring all
dealers to cool milk to 62 degrees be-
fore leaving the dairy. When it is
passed and in effect the inspector in-
tends to see that it is adhered to.

"There has been a great deal of
complaint lodged with me from this
source," Milk Inspector Warner stated
this morning, "and we are doing all
we can to immediately remedy the
matter. Milk cooled to a temperature
of 62 degrees will keep two days,
while it is not, and is brought to
the city directly from the cow, it
may sour within five hours."

BURNHAM'S PLANS

TO BE FOLLOWED.

New San Francisco Will Be Most
Beautiful City in the World.

San Francisco, April 20.—Steps
are being taken to organize a move-
ment for the rebuilding of San Fran-
cisco on the plans of Architect Daniel
Burnham. While the various other
committees have been busy with re-
lief work, many prominent citizens
have been in consultation, and with-
in the next few days plans will be
outlined and the work of making
arrangements for the most beautiful
city in the world will be built.

W. E. Barnett, one of the men in
this latest movement, says all the
funds needed for this great work will
be forthcoming just as soon as the
committee is ready to begin its work.
Telegrams have been sent all over
the country explaining the plans of
the committee, and great men of
finance have expressed their willing-
ness to co-operate in the great work
and advise any features that are
needed.

The work will commence at the
water front. This district will be
entirely rebuilt on new and modern,
as well as picturesque, lines. It is
estimated that the work will cost
\$25,000,000. New wharves and the
like will be constructed on entirely
different lines, and new depots will
be built.

The other portions of the city will
be improved, and Architect Burn-
ham's plans, which have been fully
explained in the San Francisco press
for the last two years, will be fol-
lowed. The great boulevard, the
terrace at Twin Peaks and the vari-
ous parks and other beauty spots will
now be constructed.

CHARLES M. WARREN DEAD.

Died From Consumption Last Even-
ing at His Home Here.

Mr. Charles M. Warren, age 53
years, died at his home, 1,009 North
Sixth street, last evening at 6
o'clock of consumption. He had
been ill several months but not con-
tinued to bed until the past few
weeks.

The deceased was born in Pope
county, Ill., and had been in Padu-
cah seven years. He was formerly a
street car employe but later trav-
eled out of St. Louis for a paint
house. He was well known and gen-
erally liked and his death will cause
much regret and sorrow among his
friends.

The funeral will be held tomorrow
morning at 10 o'clock from the res-
idence, with interment at Mt. Kenton
cemetery, in the county.

A MOTHER'S LOVE.

What is More Beautiful than a Mother's Love?

"Who ran to help me when I fell
And would wipe my tears away,
Or kiss the place to make it well,
My mother."

A mother's worries are many. She
sometimes forgets her own bodily dis-
comforts because of her overpowering
love for the child. She becomes broken
down, sleepless, nervous, irritable and
feels tired from morning until night.
Many mothers of experience can tell you
that at such a time they have been re-
lieved, benefited and strengthened and
put into proper health by taking a pre-
scription which their mothers had told
them was the best woman's tonic and
nervine to be taken at such times.

Dr. Pierce's Favorite Prescription has en-
joyed an enviable reputation for over a
third of a century. In all that time it
has sold more largely in the United
States than any other tonic for women's
needs, and to-day its sales are greater
than ever. Dr. Pierce made up this
prescription from native medicinal roots
without the use of a particle of alcohol
and for the single purpose of curing
those diseases peculiar to women and
when there is a lack of womanly
strength to bear the burdens of maternal
duty.

How few women come to this
critical time with adequate strength.
The reason why so many women sink
under the strain of motherhood is be-
cause they are unprepared. Is pre-
paration then required for mother-
hood? asks the young woman. And
every experienced mother answers
—"Yes." "I unhesitatingly advise ex-
pectant mothers to use Doctor Pierce's
Favorite Prescription," writes Mrs. J.
W. G. Stephens, of Mills, Va. The rea-
son for this advice is that Dr. Pierce's
Favorite Prescription is the best pre-
parative for the maternal function. No
matter how healthy and strong a woman
may be, she cannot use "Favorite Pre-
scription" as a preparative for mat-
ernity without gain of health and
comfort. But it is the women who are
not strong who best appreciate the great
benefits received from the use of "Fa-
vorite Prescription." For one thing its
use makes the baby's a practically
painless. It has in many cases re-
duced days of suffering to a few hours.
It has changed the pe-
riod of struggle into a time of ease and
comfort.

A DUTY WOMEN OWE THEMSELVES.
"Good actions speak louder than
words," so, too, does the testimony of
many thousands of women during a
third of a century speak louder than
mere claims not backed by any such
record of cures.

Miss Emma Petty, 1238 S. Olive Street,
Indianapolis, Ind., Past Vice-President
Daughters of Pionneers, Indiana
Council, also Organist, South Baptist
Church, Indianapolis, writes: "For sev-
eral years I suffered with leucorrhoea,
which was a serious drain on my vitality,
sapping my strength and causing severe
headaches, bearing-down pains and a
general worn-out feeling, until I really
had no desire to live. I had many
medicines recommended to me and tried
many, but did not get permanent relief
until I took Dr. Pierce's Favorite Pre-
scription. In two months I was much
better and stronger, and in four months
I was well. Have had no more disre-
garded discharge, no more pain; so I have
every reason to praise 'Favorite Pre-

scription.' I consider it without an
equal for ills of women."

All the ingredients entering into
Dr. Pierce's Favorite Prescription are
printed in plain English on each bottle
wrapper. Dr. Pierce thoroughly shows that
he is not afraid to tell his patients just
what this medicine is made of. This
is not true of any other medicine espe-
cially designed for the cure of woman's
peculiar ailments. This "Prescription"
is also the only woman's medicine sold
through druggists that does not con-
tain a large percentage of alcohol; it
contains not a drop.

As an indication of the high esteem
in which the medical profession are
coming to regard the several ingredi-
ents of which Dr. Pierce's Favorite Pre-
scription is composed, we have room here to
insert only the following:

Dr. John Fyfe, of Saugatuck, Conn.,
Editor of the *Journal of Therapeutics*
in *THE ELECTRIC REVIEW* says of
Uncle Sam's (Helena's) Dose: "One of
the chief ingredients of Dr. Pierce's Fa-
vorite Prescription: 'A remedy which
invariably acts as a mercurial invigorator
and always favors a condition which
makes for normal activity of the entire
reproductive system, cannot fail to be
of great usefulness and of the utmost
importance to the general practitioner
of medicine.'"

"In Helena's we have a medicine
which more fully answers the above
purpose than any other drug with
which I am acquainted. In the treat-
ment of diseases peculiar to women it
is seldom that a case is seen which does
not present some indication for this
remedial agent."

The following are among the lead-
ing indications for Helena's: Thin or
aching in the back, with leucorrhoea;
atonic (weak) condition of the repro-
ductive organs of women, mental de-
pression and irritability, associated
with chronic diseases of the repro-
ductive organs of women, constant
sensation of heat in the region of the
menstruation, "flooding," due to a
weakened condition of the reproductive
system; amenorrhoea, arising from or
accompanying an abnormal condition
of the digestive organs and an anemic
(thin blood) habit; dragging sensations
in the extreme lower part of the abdo-
men.

If more or less of the above symp-
toms are present, no invalid woman
can do better than take Dr. Pierce's
Favorite Prescription, one of the leading
ingredients of which is Unicorn root,
or Helena's.

LITTLE BUSINESS WAS TRANSACTED

Board of Works Yesterday Held
a Regular Session.

East Telephone Co. Refused a Request in View of Recent Obtained Injunction.

FIRST STREET IMPROVEMENT

The board of public works met in regular session yesterday afternoon, but had little business of importance before it.

A plat from the East Tennessee Telephone Co., outlining improvements to be made in pole setting, and other street improvements, was returned to the company, the board refusing to take any action because the company secured a temporary injunction in federal court restraining the city from interfering with its operations in Paducah until the franchise entanglement can be passed on by the court.

A remonstrance from the Ferguson and Palmer Mill Co., at Third and Elizabeth streets, against paying \$118 for street improvements on the Third street side, was filed. Mr. Earl Palmer, of the mill company, claims that the late E. Palmer dedicated free to the city enough private property to extend Elizabeth street to the river, and thinks this should exempt the firm from taxation for the Third street improvement. It is said the city charged nothing for the Elizabeth street improvement on the mill side of the street, paying the costs itself. A suit is threatened, but Mr. Palmer has signified his willingness to compromise.

The Paducah Traction company was given permission to install a switch between Sixteenth and Seventeenth streets on Broadway, a majority of the property owners consenting.

Repairs to the brick work about the city power house boilers were ordered at a cost of about \$200.

No action was taken in the matter of putting down 1,000 feet of drain pipe to remedy defective drainage near the Starks-Ullman plant on North Eighth street. The board referred the matter to the municipal boards to see if the boards desired to expend money in draining water from private corporations.

The board ordered piping sold Sam Lichel at cost. He desires to better drainage through his property at Ninth and Washington streets.

The street inspector was ordered to secure permission from the I. C. road to use its vacant property at the west end of Clark street for storing rock taken from the quarry lot.

The matter of cleaning gutters in "Northwest Addition" was referred to the streets not being dedicated to the city.

The board ordered piping extended under the fill on West Broadway in order to permit widening the fill.

The city street inspector was empowered to buy a new \$225 street grading machine.

The Paducah Traction company was granted permission to remove poles on the South Side.

The street inspector was ordered to employ a carpenter to put up several hundred signs on street corners. The signs arrived several days ago.

The board then adjourned.

First Street Improvement.
The joint street committee and board of public works met yesterday afternoon and decided on plans for paving First street between Washington and Broadway.

The street is not to be paved entirely, only the half from the west

PADUCAH BAR ONLY REORGANIZES

MEETING FIXED SEMI-MONTHLY.

The Paducah Bar Association met last night at the city hall reorganized and authorized the appointment of a special committee to investigate any charges of alleged misconduct on the part of any member of the bar association, or attorney practicing at the local bar, to report the result of the matter at the next regular meeting.

The following were present: Attorney W. F. Bradshaw, Sr., W. F. Bradshaw, Jr., Hal S. Corbett, Chas. K. Wheeler, James Campbell, Sr., James Campbell, Jr., R. T. Lightfoot, George Oliver, E. H. Puryear, W. M. Reed, J. S. Ross, Frank Lucas, W. A. Berry, J. M. Worten, A. J. Herring, D. A. Cross, D. G. Park, J. K. Hendricks, J. C. Flournoy, D. H. Hughes, J. Wheeler Campbell, W. V. Eaton and A. E. Boyd.

The president of the association, W. M. Reed, read a petition stating that rumors of misconduct and unprofessional actions in soliciting business, litigation or practice, had gained currency against local attorneys, and in order to uphold the dignity of the profession it was proper to investigate these rumors and to disprove the acts if possible.

The petition for the call of the meeting, was presented, Judge Reed stated, by Officer Aaron Hurley, and further than this he knew nothing about the purpose of the meeting.

Judge Reed suggested the reorganization of the association, which was effected with the above named members, and all other members of the organization not present.

The election of officers resulted in Wm. M. Reed, president; W. A. Berry, first vice president; E. H. Puryear, second vice president; Thomas Crite, secretary, and Alben Barkley, treasurer.

The same constitution and by-laws the old association worked under were adopted.

James Campbell, Jr., read a resolution to investigate such charges made against any member or members of the bar association. As no specific charges were filed against anyone, some objection to the resolution was raised as it would be an

open admission that some attorneys were guilty of unprofessional conduct.

This brought forth a great deal of discussion among the members of the association, Attorney C. K. Wheeler, James Campbell, Junior and Senior, and J. W. Campbell, R. T. Lightfoot, D. G. Park, W. A. Berry, W. M. Reed and Thomas Crite being prominent.

Judge D. G. Park suggested a substitute to the resolution, providing for the appointment of a regular committee to investigate into any charges that might be preferred, and this carried.

Judge Reed appointed Attorneys D. G. Park, James Campbell, Sr., R. T. Lightfoot, C. K. Wheeler and J. S. Ross on the committee.

He then appointed his regular committees as follows:

Banquet—J. Campbell, Flournoy, Richard T. Lightfoot and W. A. Berry.

Library—John G. Miller, George Oliver, Oscar Kahn, Edward H. Puryear and W. A. Berry.

Program—J. Wheeler Campbell, Frank Lucas and Richard T. Lightfoot.

Judiciary—James Campbell, Sr., John K. Hendrick and J. Campbell Flournoy.

Standing Investigation—Eugene Graves, Alben W. Barkley and Arthur V. Martin.

Trial—John K. Hendrick, Henry Hughes, George Oliver, William Bradshaw, Sr., and W. V. Eaton.

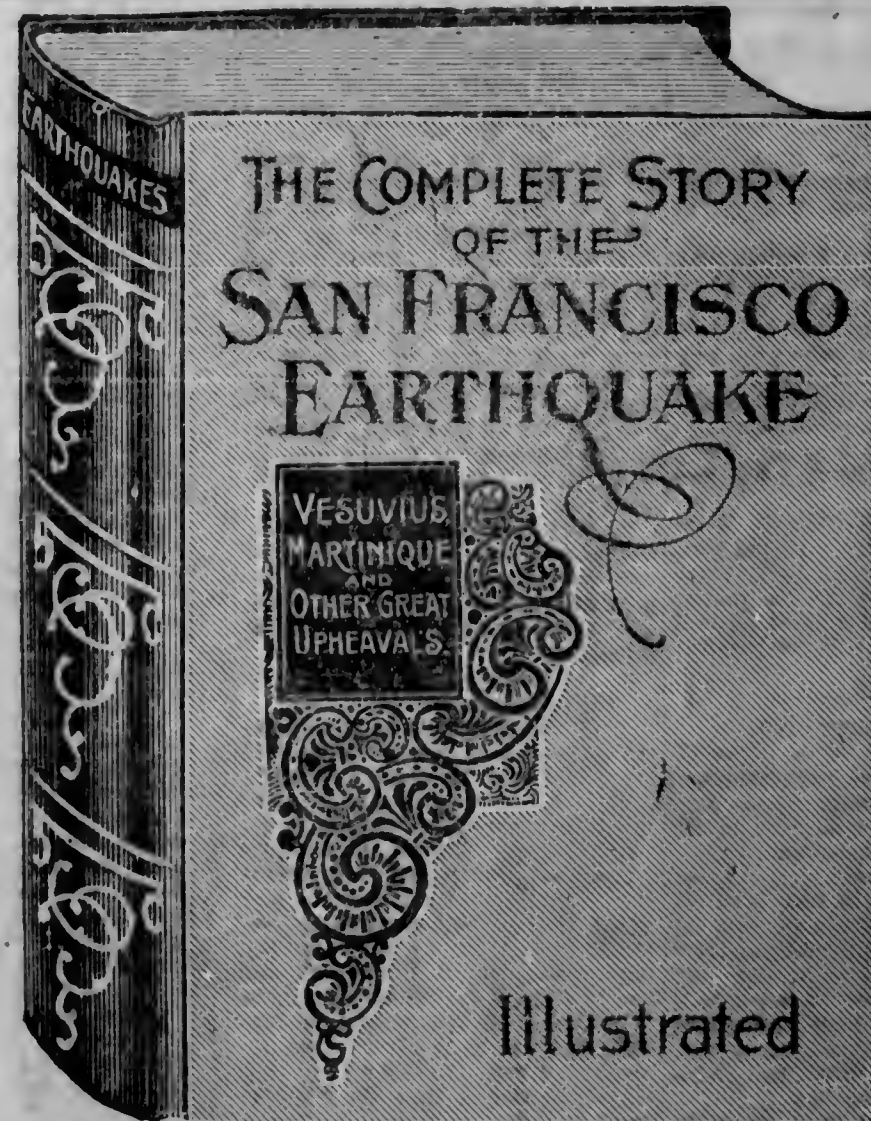

Executive—L. K. Taylor, W. A. Berry, John G. Miller, J. Dennis Moe and J. Mark Worten.

Membership—Hal S. Corbett, David Cross and James Campbell, Jr.

The association decided to hold regular meetings the second Monday in each month and to assess \$1 against each member to defray the expenses of a big banquet to be given the first Monday in June. The association then adjourned.

Life is a game, and most of us at one time or another fatuously imagine that we are it.—New Orleans Picayune.

THE PARK COMMISSION.
The mayor has announced his park board and it is as follows:
George W. Walters—H. C. Rhodes.
D. G. Murrell—Charles Reed.
—Edwin J. Paxton.

The board will be sworn in and will organize early next week. The selections are good ones and the first movement for a good system of parks is well under way.
Of course it is too late this year to provide any money with which to purchase sites for parks, but the proposition of a bond issue for parks will probably be put before the people at the November election. It has been suggested that the council submit the proposition of a \$40,000 or \$50,000 bond issue to the people, and this would establish a fine system of parks.

The park enthusiasts, and there are a number of them in the city, too, are satisfied with anything for a start, appreciating the fact that it will take time and a good deal of money to give the city the parks it should have.

CLEAN UP THE CITY.
In a great many of the cities of the country they have a general cleaning up day every spring, and the usual days are being announced in all these cities again this year.

This is an excellent idea and one that could be adopted with good results in Paducah. The plan is to set a day for everybody to clean up their premises, front and back, and the mayor to issue a proclamation calling on everyone to do so. Owensboro is doing this, Henderson, too, in fact, all the neighboring towns, and Paducah should adopt the idea.

May 1 would be a good day to do it, and The Sun suggests to the mayor that he consider the matter and call on the citizens for a city cleaning day. We have our housecleaning days and why not one for the city?

Murray's daily, the Free Press, has temporarily suspended. Illness of its editor, Mr. John McNeel, and the enforced absence from home of its publisher, Mr. A. T. Osborn, forces the paper to the shelf for the time being. It is announced. The Free Press was a very creditable effort to its editor, publisher and Murray. Its suspension, even temporarily, is to be regretted, but more especially will its "exchange list" regret the illness of Col. McNeel, which seems to be of a serious nature, and Mr. Osborn's enforced absence, because of a law suit, from their papers, the Free Press and the Ledger.

There is a wide difference of opinion among those in authority as to the number of deaths in San Francisco from last week's earthquake. The county coroner places the number at not less than one thousand and accounts for over a good half of number, but Gen. Greeley, who reports the government says the will not exceed three hundred. Mr. Leach, of the govern-

ment mint. Yet, as against Greeley and Leach and in substantiation of what the coroner says—and the newspapers, too, for that—comes the report daily of the discovery of more dead bodies and the necessity to kill dogs all over the city found entangled in the ruins. It is a safe prediction from all the reports that the statement of the coroner in placing the list of lost at one thousand is nearer the correct figure than any other statement made, and he will be more than fully vindicated when the ruins are cleared away and all the missing are taken into consideration.

The contractor who has the sidewalk construction work on West Jefferson street should be given instructions by the board of works to rush the job. He is doing a little work every few days, and then stops and the residents in that part of the city suffer by the delay. The same contractor has the work on the Harahan addition and seemingly proceeds with that work without interruption, which is evidence that the work can be carried on continuously. The city should see that a public contract receives the same consideration as a private one does.

There is a good deal of complaint about the way in which the contractors monopolize the streets with their cement and mortar beds, and brick piles, and the city authorities should order a different disposal of such materials. On Broadway, between Fourth and Fifth streets, the busiest block in the city, a good portion of the block out to the car tracks is blocked in such a manner that it is dangerous to pedestrians and vehicles, which should not be permitted.

The Louisville Post says: "The question is, will the state racing commission help the public to pick the winner?" No! The racing commission is more likely to help the winners pick the public. At least that is the history of racing, and the commission won't be likely to kill the sport in the way the Post seems to think.

Here is a compliment for The Sun that is highly appreciated. It is from the Louisville Times of the 25th inst: The Paducah Sun's display of the first news of the San Francisco horror was one of the best pieces of newspaper work seen out in the state in many a day.

ILLINOIS NEW PRIMARY ELECTION LAW READY

Thought It Will Pass the State Senate Today and Tomorrow.

Springfield, Ill., April 26.—The senate has completed the senate primary election bill and it was advanced to a third reading. It will pass today or tomorrow.

The bill provides for the nomination of no state officers by primaries although an "advisory note" may be taken for governor and United States senator. The bill makes primary districts the unit of representation, fixing dates for primaries for the first Saturday in March; requiring state conventions of all parties to be held the second Tuesday in May; fixing the primaries this year the second Saturday in August; for the election of state delegates by county conventions; for the nomination of delegates to the congressional and senatorial conventions in Cook county by a direct vote and outside of Cook county by county conventions.

There is no provision for the selection of delegates to state conventions and they may be selected under the provision of the present law or in any manner a party may see fit to prescribe.

High Tension of Modern Life.

President Roosevelt in his inaugural address said that "modern life is complex and intense." "Strenuous" was his former definition, which he made so popular that it became a classic like Mr. Cleveland's "innocuous desuetude." Mr. Roosevelt is right. Modern business and social life are "both complex and intense" and under the strain of living one's muscles, ligaments and nerves may get keyed up to a degree of tension such that there is no unloading them in the brief time afforded for rest. People get so tired they can't sleep. How many people know so well this modern feeling of tension! Drugs give no respite from it but since the tired body cries out in its stress for any artificial support, either stimulant or sedative, drug habits are easily formed at such periods, if once indulged persistently. There is but one treatment that will relax this high tension of modern life and that gives its patients prompt, adequate natural and whole some rest from the first treatment—Osteopathy. It is usually regarded as a sovereign cure for sleeplessness.

I should like to talk to you personally about osteopathy and what it is doing for suffering humanity.

A safe, rational treatment, it is appreciated more and more every day.

L. O. O. F. INTERSTATE ASSOCIATION MEET

Good Attendance in Spite of Absence of Many Delegates.

Local Brothers' Entertaining Guests in Hospitable Way and the Reception Is Pleasant.

EXERCISES UNDER FULL WAY

The Odd Fellows' Interstate Association is holding its meeting here today in observance of the eighty-seventh anniversary of the order. The arranged program is being very successfully carried out, but the attendance is not anything like what it should be or would have been had the controversy between the Paducah members of the Interstate association and the president as to a postponement been avoided.

There are less than 1,000 visitors in Paducah, and most of those who are here are from this end of Kentucky. There are lodges from Cairo, Mound City, Metropolis and New Columbia, Ill.; Bumpous, Massac, Folsomdale, Princeton, Grand Rivers, Ky.; Brookport, Ill., and several other smaller towns in this section of the state. Many ladies of the Rebekahs are also present.

The program was started off with the parade followed by the address of welcome and public speaking at The Kentucky.

The band contests will come off this afternoon, but there are few bands to participate. The Deal's band, of Paducah; Mound City, Ill., and Metropolis bands are here and it will be between the three that the prizes will be distributed. The contest will be held late in the afternoon at Fourth and Broadway.

The streets have been thronged all the morning with lodgesmen, as the Paducah lodges turning out well indeed. There is a great deal of interest taken in the work of the degree teams, but the absence of the Carbondale, Carterville, Murphysboro and other larger Illinois lodges is felt. President Joyner, of Carbondale, is among the absent.

The Paducah lodges are doing everything for the convenience of the visitors and the celebration will prove anything but a "frost."

The Parade.

The parade this afternoon was one of the best ever seen in Paducah. The 700 lodgesmen and ladies of the Rebekahs from Paducah supplemented by the visitors made a very creditable turnout. The parade was formed as far out as Seventh street from Kentucky avenue to Jefferson street and came off shortly before 2 o'clock without a hitch. The parade was headed by the city patrol wagon with police commissioners within. Chief Wood, and his fire department followed. Odd Fellows and Rebekahs came next. The municipal officers in carriages including the board of works, followed the Rebekah section, and Deal's band furnished music for this section. The Metropolis band came second in line and the Mound City band drew up in the rear.

The entire line of march was taken in and the parade drew up at Fifth and Jefferson street and disbanded. The speech-making at The Kentucky is in progress at press time. The welcome address was delivered by Judge R. T. Lightfoot, on request of Mayor Yeiser, and there were several responses made.

Will File a Suit.

Attorney W. V. Eaton went to Mayfield today to file a suit for W. E. Krough against Allen Hill, administrator of the estate of J. B. Holland, for \$1,100. Holland was surety on some notes of Hill's, aggregating \$1,100, and Hill claims that he paid the money over to him to pay the notes but this was not done, for some reason. As the administrator refuses to pay off the obligations hence the suit.

CITY ATTEMPTS TO MAKE ITSELF CLEAN

In Suit Against East Tenn. Tel. Co. By Tender of Money.

Attorneys of Company Just Looked at the Case, Not Accepting or Refusing It.

CITY SOLICITOR AGAINST SUIT.

City Solicitor James Campbell this morning tendered \$3,000 in cash to Attorneys Wheeler, Hughes & Herry, representing the East Tennessee Telephone company, which is the sum of money paid the city by the telephone company over two years ago in an attempt to compromise the differences which had existed between the municipality and the telephone company. The money was neither accepted nor refused.

"We just looked at the money in the hands of the city solicitor," one of the firm stated, "neither accepting nor refusing it. We intend to do nothing more in the matter than prosecute our law suit."

The councilman and alderman boards decided to pay this money back, or proffer it, in order to make the city "clean" in going into the courts to fight the company to compel it to buy a franchise. The high promises to be long, if it is not stopped in the end and compromised.

City Solicitor James Campbell, Jr., thinks that the city is going into litigation which will cost many thousands of dollars in the end, even if the city wins out, and does not favor the fight which is being prepared. He still suggests a compromise as the best course to pursue, and although he is going into the fight to win, he presses some reluctance that it is not stopped in its youth without the expenditure of any more funds.

"I have always thought, and still think, that a compromise is the surest, best, and easiest way out of this entanglement," Solicitor Campbell declared this morning. "The city is going into a fight which will cost thousands of dollars before it has finished; even if it is victorious in the end, I am positive from present indications, that the case will go as far as the federal circuit court of appeals, and would not be surprised to see it finally land in the supreme court of the United States. The costs alone, if the case be prosecuted to this point, will amount to over \$500, and this is no small item."

"I have studied the matter carefully, and regret that the fight is to be waged. The matter will consume a great deal of time, and may not be finally settled before the expiration of two and a half years. It may require longer, but this is the minimum I set. I firmly believe, from the status of affairs in the state generally, speaking, that within the next three or four years, before the present litigation in question is finally settled, the telephone management will be placed in the hands of a commission the same as railroads. I think the state legislature will take hold of it, provide for a commission as it does in railroad cases, and the matter of rates will be adjusted the same as in the case of railroads. This, of course, would take the management out of the city's hands even if she compelled the telephone company to buy the franchise outlined by the municipality. It would be a victory for the city in winning the suit, but little would be derived from it."

"Another matter which may be taken into consideration is the probability of the Cumberland Telephone Co. forcing exorbitant rates on the public, if the compromise be carried out. The franchise agreed on in the compromise measure gave the company the privilege of raising rates with each additional thousand subscribers, 25 cents on residence, and 50 cents on business 'phones. This does not necessarily imply that the matter is compulsory or will so be held by the company. I believe that competition will be sufficient to keep the rates down, and no franchise provisions would be absolutely necessary as far as practicability is concerned. Of course it would be well to have such provisions in effect as a precaution against possible exorbitant rates."

"The bone of contention which caused the city to fall to stick up to its part of the compromise agreement lies in the difference of 1,000 subscribers. I think, as before stated, that the business will soon be under the control of a commission, and the action of the city in pushing the litigation may be unnecessarily after all."

City Solicitor Campbell has been given help in prosecuting the suit, and states he will do all he can in the matter to win out for the city. The telephone company attorneys were seen relative to the matter of the city standing "clean" in the courts by the act of paying, or offering to pay back \$3,000, accepted in the attempted compromise, and it was the opinion of the telephone attorneys that the city would gain little by this action. The record of the breach of compromise stands the same, they believe, either way the city acts.

Solicitor Campbell takes the opposite view, believing that the payment of the \$3,000 will expunge the entire compromise proceedings. This remains to be decided by the court,

however.
The cost to the city in the telephone case has already been very great. The prosecution was launched by a Democratic council and was inherited in the shape of a big white elephant, by the present boards. The boards have taken it up where it was left off by the outgoing boards simply to uphold the city; but the matter of economy may cause a reconsideration before any further action is taken, if the advice of the solicitor is taken.

The city paid an attorney half the compromise money for so admirably engineering the compromise deal. He got \$1,200. This was more than two years ago and this is part of the money the city will actually lose, along with the accrued interest. The cost of the case for attorneys' trips to Louisville in federal court matters, costs of court proceedings in this district, and for special meetings of the boards in the past, with many other small matters of expense, will swell the total expense already incurred into the hundreds. This, with the additional \$500 the city will pay an attorney to assist in the prosecution, will also swell the total costs. It seems to be a question now of whether the boards, looking at the matter in this light will stick by the former action and prosecute, or reconsider and attempt to effect a compromise.

Regarding the compromise, the telephone attorneys stated that the telephone company was willing to stick to its part even now. The telephone company attorneys allege that their client is operating under a legislative grant, and does not have to buy a franchise. The compromise was not violated in anyway as the company stood ready to buy a franchise, but the council refused to ratify its sale, when bid in by D. H. Hughes, one of the telephone attorneys.

REV. THOMPSON CALLED.
Congregation of First Baptist Church Offers Him Their Pastorship.

At the congregational meeting of the First Baptist church last evening, the committee appointed to secure a pastor for the church, made its report, recommending that the Rev. Calvin Thompson, D. D., of Denver, Col., who recently preached here, be called. The congregation confirmed their recommendation and extended the call which will be sent on to Dr. Thompson at once.

He is a very able and talented minister and his sermons very much pleased the congregation. He lived in Louisville before going to Denver, and is known to a number of the church here. It is not known what his decision will be, but it is hoped that he will accept.

Mr. Thomas Hiley, of the city, is spending several days at his old home in Graves county.

Attorney L. K. Taylor and bride will arrive from Covington, Ga., tonight.

RUN OVER BY A WAGON.

Son of Councilman Barnett Painfully Injured This Morning.

Orliss Barnett, age ten years, the son of Councilman R. S. Barnett, was badly injured this morning while playing on Clements street. The little fellow was run over by a grocery wagon and his left leg injured above the knee. A large piece of flesh was torn out of the limb and the wound bled profusely. He was taken to the office of Dr. J. S. Troutman where the wound was dressed. It will disable the boy for some time to come.

Episcopal Vestry Chooses Officers.
The newly-elected vestry of Grace Episcopal church met last evening at the parish house, completed their organization for the coming year, electing the following officers: Senior warden; George Langstaff; junior warden, Lawrence Dallen; treasurer, Muscoe Burnett; secretary, J. E. Baker.

—Attorney A. E. Lloyd has received his discharge as trustee in the bankruptcy case of Taylor Fisher.

AN INVITATION.

Our new exchange has been completed and the public is respectfully invited to visit the operating rooms, between the hours of 9 a. m. and 4 p. m. Sundays excepted.

Our switch board is the most modern up-to-date board in the south and no expense has been spared to secure the latest inventions and improvements known to the telephone art which is a guarantee of rapid service to our subscribers.

We employ more than 75 operators to operate this switchboard and more than this number of other employees to maintain lines and install new subscribers.

We will take pleasure in showing all visitors through the plant.

DISMAL SWAMP BOILS
AND PEOPLE GET AWAY

Volcanic Disturbances in Virginia's
Famous Wilderness Drive In-
habitants Away.

Richmond, Va., April 26.—Serious volcanic disturbances began a few nights ago in the morasses of the Dismal Swamp, near Norfolk. Today the mud in the swamp is boiling up and decayed portions of trees and undergrowth are coming to the surface. People of the section are leaving in haste. Wild beasts and birds are fleeing from the swamp in droves, seeking safety on the higher ground.

The vibration last night, while slight, was felt distinctly for a considerable distance. People living in the vicinity have become demoralized by stories that have reached them of the recent disasters in other parts of the world, especially San Francisco. Many have sought refuge in Richmond and Norfolk. Others have crossed into North Carolina. The refugees report mud in the morasses, heretofore placid, boiling like a kettle and emitting steam and smoke from exploding bubbles. In places it looks as if millions of worms were working ceaselessly beneath the surface, keeping the slime in continual agitation. Tadpoles, that inhabit the swamp in millions, are said to show symptoms of uneasiness.

Chief of Police Brinkley, of Suffolk, who went into the swamp this morning, witnessed the phenomena and reports that the disturbed section is growing rapidly. The fact that the animals are leaving that portion of the swamp leads many to believe that a change in the appearance of the swamp may be anticipated.

Dangers of Defective Plumbing.

Defective plumbing permits the entrance into the house of sewer gas bearing germs or contagious diseases to which the human system readily succumbs.

Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures.

If in doubt, consult us regarding the piping and replacing defective fixtures with "Standard" Porcelain Enamelled Ware—acknowledged as the best sanitary equipment.

THE SPENDERS

A TALE OF THE THIRD GENERATION

By HARRY LEON WILSON

"You go, please, and break it to me," Uncle Peter said rather than there just at first. I'll come along in a little bit."

So Uncle Peter went, protesting that he was a broken old man and a cumberer of God's green earth.

Mrs. Hines and Psyche had that moment sat down to dinner. Uncle Peter's manner at once alarmed them.

"It's all over," he said, sinking into a chair.

"Why, what's the matter, Uncle Peter?"

"Perceval has—"

Mrs. Hines arose quickly, trembling. "There—I just knew it—it's all over—he's been struck by one of those terrible automobiles—Oh, take me to where he is!"

"He ain't been run over—he's gone broke—lost all our money; every last cent."

"He hasn't been run over and killed!"

"He's ruined us, I tell you, Marthy—lost every cent of our money in Wall street."

"Hasn't he been hurt at all?—not even his leg broke or a big gash in his head and knocked senseless?"

"That boy never had any sense. I tell you he's lost all our money."

"And he ain't a bit hurt—nothing the matter with him?"

"Ain't any more hurt than you or me this minute."

"You're not fooling his mother, Uncle Peter?"

"I tell you he's alive and well, only he's lost your money and Phis's and mine and his own."

Mrs. Hines breathed a long, trembling sigh of relief, and sat down to the table again.

"Well, no need to scare a body out of their wits—scaring his mother to death won't bring his money back, will it? If it's gone it's gone."

"But ma, it is awful!" cried Psyche. "Listen to what Uncle Peter says."

"NEVER MIND, MY SON."

"We're poor! Don't you understand? Perceval has lost all our money."

Mrs. Hines was eating her soup dejectedly.

"Ling's he's got his health," she began.

"And me windin' up in the poor-house," whined Uncle Peter.

"Think of it, ma! Oh, what shall we do?"

Perceval entered. Uncle Peter did not raise his head. Psyche stared at him. His mother ran to him, satisfied herself that he was sound in mind and limb, that he had not treacherously donned his summer underwear, and that his feet were not wet. Then she led him to the table.

"Now you sit right down here and take some food. If you're all right, everything is all right."

With a weak attempt at his old gaiety he began:

"Really, Mrs. Crackenhorpe—" but he caught Psyche's look and had to stop.

"I'm sorry, sis, clear into my bones. I made an ass of myself—a regular fool right from the factory."

"Never mind, my son; eat your soup," said his mother. And then, with honest intent to comfort him: "Remember that saying of your pa's. 'It takes all kinds of fools to make a world.'"

"But there ain't any fool like a damn fool!" said Uncle Peter, shortly. "I been a-tellin' him."

"Well, you just let him alone; you'll spoil his appetite, first thing you know. My son, eat your soup now, before it gets cold."

"If I only hadn't got so heavy," growled Perceval. "Or, if I'd only got tied up in some way for a few weeks—something I could tide over."

"Yes," said Uncle Peter, with a cheerful effort at sarcasm. "It's always easy to think up a lot of holes you could get out of—some different kind of a hole besides the one you're in. That's all some folks can do when they get in one hole, they say: 'Oh, if I was only in that other one, now, how sick I could climb out!' I ain't ever met a person yet was satisfied with the hole they was in. Always some complaint to make about 'em.'"

"And I had a chance to get out of a week ago."

"Yes, and you wouldn't take it, of course you know too much—swellin' around here about bein' a Napoleon of finance—and a Shepherd and a Wizard of Wall street, and all that kind of

guff—and you wouldn't take your chance, and old Mr. Chance went right off and left you, that's what. I tell you, what some folks need is a breed of chances that'll stand without hitchin'."

Perceval braced himself and began on his soup.

"Never you mind, Uncle Peter. You remember what I told you."

"That takes a different man from what you are. If your pa was alive now—"

"But what are we going to do?" cried Psyche.

"First thing you'll do," said Uncle Peter promptly, "you go write a letter to that beau of your'n, tellin' him it's all off. You don't want to let him be the one to break it because you lost your money, do you? You go sign his release right this minute."

"Yes—you're right, Uncle Peter—I suppose it must be done—but the poor fellow really cares for me."

"Oh, of course," answered the old man, "I'll fairly break his heart. You do it just the same!"

She withdrew, and presently came back with a note which she dispatched to Mauburn.

Perceval and his mother had continued their dinner, the former shaking his head between the intervals of the old man's lashings, and appearing to hold silent converse with himself.

This was an encouraging sign. It is a curious fact that people never talk to themselves except triumphantly. In moments of real despair we are inwardly dumb. But observe the holders of imaginary conversations. They are conquerors to the last one. They administer stinging rebukes that leave the adversary writhing. They rise to Alpine heights of pure wisdom and power; leaving him to founder ignominiously in the mire of his own fatuity. They achieve repartees the brilliance of which dazzles him to contemptible silence. If statistics were at hand we should doubtless learn that no man has ever talked to himself save by way of demonstrating his own godlike superiority, and the tawdry impotence of all obstacles and opponents. Perceval talked to himself and mentally lived the next five years in a style that reduced Uncle Peter to grudging but imperative awe for his superb gifts of administration. He bathed in this imaginary future as in the waters of omnipotence. As time went on he foresaw the shafts of Uncle Peter being turned back upon him with such deadliness that, by the time the roast came, his breast was swelling with pity for that senile scuffer.

Uncle Peter had first declared that the thought of food sickened him. Prevailed upon at last by Mrs. Hines to taste the soup, he was soon eating as those present had of late rarely seen him eat.

"Tain't a natural appetite, though," he warned them. "It's a kind of a mania before I go all to pieces, I expect."

"Nonsense! We'll have you all right in a week," said Perceval. "Just remember that I'm going to take care of you."

"My son can do anything he makes up his mind to," declared Mrs. Hines. "Just anything he lays out to do."

"They talked until late into the night of what he should 'lay out' to do. Meantime the stronghold of Mauburn's optimism was being desperately stormed."

INTERNATIONAL SPORT

UNDER IDEAL CONDITIONS

American Athletes Yesterday Set the Pace and Captured Many Events.

Athens, April 26.—International sports yesterday were conducted under ideal weather conditions. The final heat of the 100 metres swimming race developed a brilliant contest. Daniels of the New York A. C., set a furious pace and won slowing down in 10 minutes and 13 seconds.

The greatest excitement attended the running races, in which the Americans highly distinguished themselves. Three preliminary heats in the 100 metre race were won by Americans while in the finals all three heats also were captured by them.

The 800 metres race afforded a magnificent sport, the Americans winning two heats out of four. James D. Lightbody of the Chicago University, who won the first heat, and Charles J. Bacon, of the Irish-American Athletic club, who was second in the same heat ran a well judged race.

Hilthron of Sweden, finishing first in the second heat. The fourth heat was won by P. H. Pilgrim, of the New York A. C. Ray C. Ewry, New York A. C., won standing long jump, distance three metres 30 centimetres.

American successes were signalized by hoisting American flag which was greeted with great cheering.

WORST CASE OF ASTHMA.

Austrian Discovery Ascented Cures the Disease Permanently.

Newell, Iowa, April, 26.—The asthma that one of the worst cases of asthma known in medical annals has been permanently cured will be gratefully received by the thousands of sufferers from this most distressing disease. The case in question is that of Mrs. Lizzie Cordeman, Newell, Iowa, who has suffered for twenty-five years.

Ascented, the Austrian discovery for asthma and catarrh has effected this cure and it is remarkable as the lady is over three score years and ten. Mrs. Cordeman first started to effect this cure by taking a sample treatment of ascented, which was obtained by writing to the Austrian dispensary, 22 West 25th street, New York City. For a short time this dispensary will continue to send a free trial by mail to every sufferer.

MILK SELLERS

WHETHER REGULAR OR IRREGULAR MUST PAY LICENSE.

This Was the Ruling of Judge Sanders, in City Court This Morning.

Police Judge D. L. Sanders this morning decided that every person who comes to Paducah to sell milk is a "milk dealer" in the eyes of the court and subject to a fine for breach of ordinance in failing to procure the proper license to carry on his business.

This decision is the reverse of the action taken by Attorney D. A. Cross, who acted for Judge Sanders during the latter's illness the past several weeks. When the matter came before Judge Cross he decided that farmers might come to the city to sell milk twice a week, but offender would constitute the offense of breach of ordinance, as they would be recognized as regular dealers.

Judge Sanders this morning, in the case against George Husbands, of the county, held that every man who brings milk to Paducah to sell, even if he comes but once a week or not so frequently is legally a milk dealer. The warrant against Husbands was filed away and the defendant instructed to get a license if he desired to sell any more milk.

This decision means that whoever comes to the city to sell milk in competition with regular dealers will either have to pay a license or quit business.

Renee Gilliam, white, of Graves county, was fined \$20 and costs for being drunk and disorderly. He tried to "take the town" last night while drinking heavily.

"Dude" Stone, colored, who objected to paying 30 cents to a shoemaker named Thompson, at Seventh and Jackson streets, for half soles his shoes, was fined \$5 and costs for using abusive language towards the shoemaker. Stone wanted the shoemaker to "take the soles off" because he thought the price too steep.

Elnus Hirdolph, white, was fined \$5 and costs for suffering his horse to run at large in the city limits.

Albert Rogers, white, who is alleged to have stolen clothes from J. Wellie & Sons, waived examination in a grand larceny charge, and was recognized to appear before circuit court.

One Jenkins, white, was fined \$1 and costs for drunkenness.

France Denis Rumor. Paris, April 26.—A semi-official statement is issued denying the report of a prospective resumption of diplomatic relations between France and Venezuela.

MANY IMPROVEMENTS

STREET CAR COMPANY DOING ALL IT CAN TO IMPROVE LINES.

New Switch to Be Placed on West Broadway Will Facilitate Transfer Station.

The board of works yesterday gave the street car company permission to lay a switch on Broadway between Sixteenth and Seventeenth streets, and work on it will be started at once. This will enable the company to put in a quicker service on the Broadway line.

The Third street trolley is being installed rapidly and will be up all the way by the end of the week. The company is also working on the over head construction on the Broadway line and expects to have that completed in a few days.

Work of improving the park is progressing rapidly. The lake is being enlarged, a switch has been put in at the end of the tracks to enable the company to handle the cars without bringing them all the way down to the fair grounds switch, as formerly, which will be a time saver.

The summer season at the theater will open about May 15th, and the play house is now being put in readiness for it. The park grounds are being put in condition and when the work is completed the park will show a decided improvement over last year.

MAY NOT STRIKE

MINERS TO OFFER OPERATORS A MODIFIED PROPOSITION.

Will Request an Early Consideration, as Another Convention Has Been Called.

Wilkesbarre, Pa., April 26.—The miners' scale committee met this morning to complete the last touches of their counter proposition to the operators. The miners say this answer will avert a strike because of its radical modifications from the original demands.

Call for Convention. Wilkesbarre, Pa., April 26.—The general scale committee decided today to issue a call for a tri-state convention at Scranton next Thursday. President Mitchell indicated a counter proposition to the operators will be sent this afternoon. The operators will be requested to make an early reply so the convention can act.

Mules Let for Feed. Shamokin, Pa., April 26.—The coal operators today turned over to the farmers in the coal regions most of their mule mules to work on the farm during the coal suspension. No charge is made for the mules, the company is saving the price of their feed.

PROMINENT GREENVILLE MAN. Louis Reno, Banker and Well-known Citizen, Succumbs to an Operation.

Louisville, Ky., April 26.—Louis Reno, aged 58, president of the bank of Greenville at Greenville, Ky., and one of the most prominent men in that part of the state, died last night at Northern infirmary following an operation for bowel trouble. Mr. Reno was brought to the institution yesterday and never rallied from the shock of the operation, which was performed shortly after his arrival. The deceased leaves his wife and two daughters, one Mrs. Matthew B. Porter, wife of the pastor of the Crescent Hill Presbyterian church, and the other the wife of Prof. Frear, of the Pennsylvania State college. The body will be taken to Greenville today for burial.

CROOKS COMING TO TOWN.

Warning Notice Given Out by Chief of Police Collins.

The citizens tomorrow and the coming carnival week is attracting the usual crooks and general class of criminals of the pickpocket order, and Chief Collins desires to notify all persons to look carefully to their houses and to keep windows and doors securely fastened both day and night.

It is understood that a well known "crook" is here, with several companions preparing to "work the town" during the carnival week and on circus day. The police have been given instructions to keep a close watch on their movements, and every precaution against criminal acts will be taken.

Man Sued for His Salary. Detective T. J. Moore this morning filed a suit in quarterly court against the city of Paducah for \$30, his salary for the 15 days he has not received, a result of his position being abolished by an ordinance cutting the police force. He states that he intends to sue each month for his salary until the term of his original appointment runs out.

THE DOCTORS

WELL ATTENDED MEET OF COUNTY SOCIETY LAST NIGHT.

Next Meeting May Be An Outdoor One, With Barbecue Attached, Weather Permitting.

The McCracken County Medical society met last night in the office of Dr. Frank Hoyd and there was a good attendance. The principal business was the report of the committee on arrangements for the entertainment of visitors to the Southwestern Medical Society next month.

A river boat ride and banquet will be the features of entertainment and this decision was forwarded to the secretary of the southwestern association at Benton to be embodied in the program.

Dr. Frank Hoyd read an interesting report of the work being done in Riverside hospital. He is a member of the hospital board and intimately acquainted with the workings of the institution. The private wards have proven as paying as the medical fraternity expected them to be, and the hospital is a success so far beyond the expectations of the doctors.

Dr. Hoyd's report is as follows: There have been 250 admissions, 128 city patients, and 124 private patients.

There have been 95 surgical operations, and only six deaths of patients who were operated on. The total deaths, from all causes, is 17.

This is a remarkable showing, both in the low number of deaths of patients operated on, and from sickness. The operations have been mostly heavy ones, and the low death rate is a credit to the physicians and the institution. There are now 25 patients in the hospital.

The hospital was opened July 1, 1905, and has been in operation therefore ten months.

This will probably be the last indoor meeting of the McCracken County Society. The first meeting in the country will be held within the next two weeks, weather permitting, and will be in the county. The place remains to be selected. A barbecue will be the feature of the initial meeting. Doctors are requested to bring their wives and families and make the meeting a social one.

THE CIRCUIT COURT TODAY.

Several Small Cases Were Disposed Of This Forenoon.

Circuit Judge William Reed held a brief session of circuit court this morning.

The case of G. C. Diuguid against R. R. Lax was dismissed. A judgment for sale was filed in the case of G. W. Katterjohn against J. W. Puckett.

The case of May Hunt against Q. V. Nance was stricken from the docket, after the filing of a mandate affirming the action of the lower court. The case of Arzillia Poer against Charles A. Poer was dismissed.

In the case of Allan Free against the Southern Express Co., a judgment for \$45.50 was filed for the plaintiff.

FEATHER BED RENOVATORS

Are Wanted for Beating Many Out of Their Beds.

Chief of Police James Collins is on the lookout for some feather renovators who operated in Paducah several weeks ago. These men are alleged to have taken feather beds from residents pretending to renovate the feathers, but instead of doing this it has developed that several beds were taken to a second-hand dealer, who buys feathers, and sold. Four persons yesterday identified beds in the second-hand store as theirs, and Chief Collins is trying to locate the whereabouts of the renovators who are supposed to be operating in Illinois.

Deeds Filed.

C. M. Simmons to G. F. McCorkle, for \$250, property in the county.

Thomas C. Challenor to S. J. Sanderson, for \$900, property in the county.

S. F. Warford and others to C. Puller, for \$320, property in the county.

Frank Simmons and others to Ben Humphries, for \$650, property in the county.

Josh Peeler and others to Charlie Peeler, for \$300, property in the county.

A Matter of Much Complaint.

There is a great deal of comment on the way contractors are permitted to take up portions of the streets in erecting buildings in the business district, and especially the mixing of mortar and plaster. Contractors are permitted by ordinance to take up half the street, but in cities they are required to do their mortar mixing inside the building. It is probable that this matter will be taken up by municipal board members and a similar ordinance to that enforced in other cities adopted.

Mayfielders Marry in Metropolis.

George E. Willits and Miss Florie N. Sanderson, of Mayfield, were married this forenoon in Metropolis. "Squire" Liggett tying the knot. The couple drove through from Mayfield to Metropolis in a buggy and are returning that way to their home.
